

ABSTRACT OF THE DISCLOSURE

THREADS, FIBRES AND FILAMENTS FOR WEAVING WITHOUT SIZING

- 5 The invention relates to threads, fibres and filaments
that can be woven without sizing, and a method for
producing said threads, fibres and filaments. The
invention especially relates to threads, fibres, and
filaments treated by a grafted copolymer. The invention
10 also relates to fabrics obtained without sizing, using
said threads, fibres and filaments, and to a method for
weaving without sizing, especially by means of a dry
loom, using said threads, fibres and filaments.
Furthermore, the invention
15 relates to the use of said threads, fibres, filaments
and fabrics for producing airbags.
